## PROFESSIONAL EXPERIENCE

USER INTERFACE SOFTWARE ENGINEER - Clinton, UT

Liferay, February 2011 - December 2011

Developed and implemented user interfaces for a world-class content management system in use by over one million users. Worked directly with clients and the Liferay community to fix bugs and design new features. Created new documentation and training material to facilitate an expanding Liferay-specific certification program. Provided onsite training for in-house customers as well as trainings for worldwide symposiums and events.

*Selected Clients:* Barclays, Honda, nVidia, Sesame Street, S&P 500, Toyota

*Selected Projects:* Alloy UI, Liferay Enterprise Edition

*Technologies Utilized:* Adobe Creative Suite, CSS, JAVA, JavaScript, Alloy UI, XHTML, XML

## USER INTERFACE DEVELOPER - Salt Lake City, UT

iCentris, March 2007 - February 2011

Designed, developed, and maintained a series of complex web application interfaces that made up an industry leading customer resource management system for the direct sales industry. Developed specific report interfaces for massive data consumption. Designed and developed CMS replicated pages. Designed and developed custom Liferay themes for the financial advisors industry. Designed and developed interfaces for financial compliance monitoring web software. Designed interface prototypes, mockups, and workflows.

*Selected Clients:* Avon, Cookie Lee, Herbalife, Nikken, Stampin' Up!, Team Beach Body, The Resource Group, USANA Health Sciences, Xango
